

# ADVOR NEWSLETTER

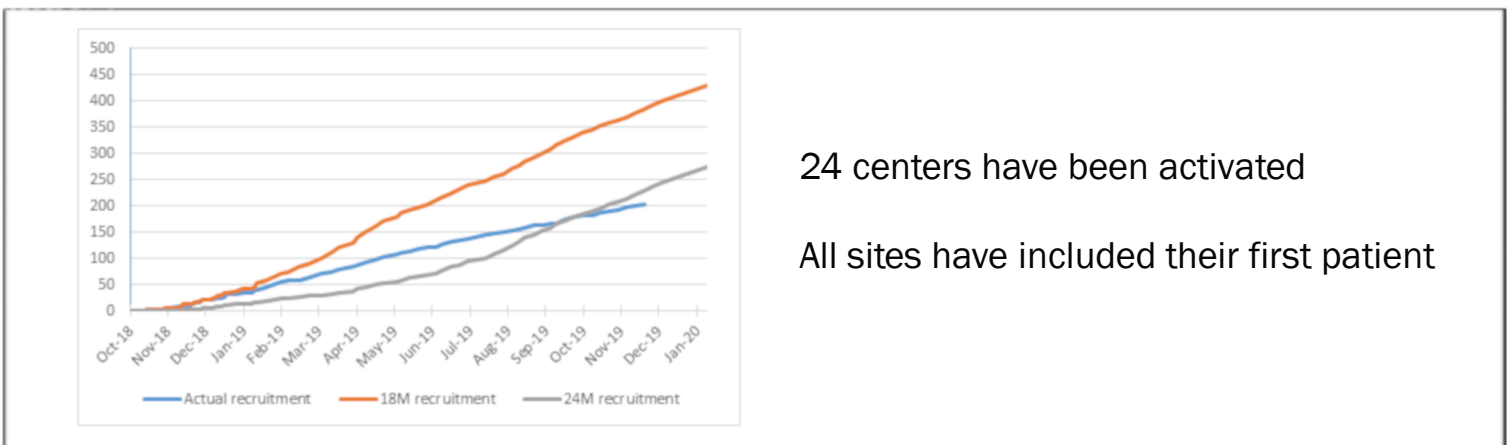

Dec 2019

## Recruitment:

We are very happy to announce that ADVOR has included **204 patients!**

However, we still need 315 inclusions to complete the enrollment. Therefore, please keep up the efforts to include at least 1 patient per center per month in order to catch up with the recruitment plan.

Congratulations to Dr R. Dierckx (OLV Aalst), Dr F. Chenot (GHdC), Dr W. Smolders (AZ Klina) and Dr. E. Van Craenenbroeck (UZA) and their teams for recruiting at least 1 patient per month since the last newsletter.

## Additional ADVOR centers:

It's our pleasure to welcome six additional centers (Dr Missault - AZ Sint-Jan, Dr Vervoort - AZ Sint-Maarten, Dr Goossens - AZ Nikolaas, Dr Vandekerckchove - AZ Sint-Lucas, Dr Striekwold - AZ Mol and Dr Moubayed - CHU Charleroi) which will be initiated early in 2020.

**We wish you and your family a Merry Christmas and a healthy and happy New Year!**

The ADVOR Team would like to thank everyone for their commitment and hard work. If there are questions concerning the ADVOR trial, do not hesitate to contact us.
